# Introduction

The *Equity in Athletics Act (EADA)* was designed to make prospective students and prospective student-athletes aware of an institution of higher education's commitment to providing equitable athletic opportunities for its men and women students. The EADA requires the disclosure of information about varsity teams and the financial resources and personnel that the school dedicates to teams.

Any coeducational institution of higher education that participates in Title IV, the federal student aid program, and has an intercollegiate athletic program, must comply with the *EADA* by preparing an annual report, officially called *The Report on Athletic Program Participation Rates and Financial Support Data*; more commonly known as the EADA Report. [Report cite 34 CFR 668.47] The EADA Report must be published by October 15 each year and must be made available upon request to students, prospective students, and the public. A prospective student is defined as an individual who has contacted an eligible institution requesting information concerning admission to that institution.

Institutions must submit their EADA data to the Secretary of Education within 15 days of making it available to students, prospective students, and the public. The sole mechanism for submitting the data is via the EADA Web-based data collection, commonly known as the EADA Survey. Data submitted online are migrated to the Office of Postsecondary Education's (OPE's) public dissemination website at <a href="http://ope.ed.gov/athletics">http://ope.ed.gov/athletics</a> for anyone to view.

This user's guide takes you step by step through the EADA Survey. But first, a word of caution:

The requirements for the October 15 report and the web-based data collection differ in some respects. Therefore, we strongly urge you to read the EADA statute and regulations (<a href="http://www.ed.gov/finaid/prof/resources/athletics/eada.html">http://www.ed.gov/finaid/prof/resources/athletics/eada.html</a>) to make sure that your institution complies fully. Additional information is available at <a href="http://www.ifap.ed.gov/fsahandbook/attachments/0910FSAHbkVol2Ch6Information.pdf">http://www.ifap.ed.gov/fsahandbook/attachments/0910FSAHbkVol2Ch6Information.pdf</a>. The relevant pages are 2-69 and 2-76 through 2-77. Because the requirements differ to some extent, an institution may not fulfill the October 15 report requirement by posting the Web-based survey screens on its website or by providing a link to OPE's public site.

The above link for information regarding the October 15<sup>th</sup> report can be accessed on the left side of the Home page, or after you log in, through the Help menu located at the top of the screen in the horizontal menu bar.

**Both the report and participation in the web-based data collection are mandatory**. The dates by which institutions must comply with the EADA are mandated by Congress, and there is no grace period. Compliance with the EADA is monitored by the U.S. Department of Education (ED). In the case of noncompliance, ED may limit, suspend, or terminate the participation of any school in Title IV as well as impose civil fines of up to \$27,500 for each violation. [Civil penalty cite Sec. 487(c)(3)(B) of the HEA]

# **General Information about the Survey Application**

Your institution's specific data entry screens are determined by your responses to the Screening Questions. You will not see screens that do not pertain to your institution. That is, if your institution has women's sports teams only, you will not see screens for men's or coed teams. However, instructions in this user's guide address men's teams, women's teams, and coed teams. Please apply the information as appropriate for your school. For example, if you have women's teams only, follow the instructions that apply to women's teams and coed teams.

You can complete the survey during one session, or complete it over multiple sessions. Remember to save your data as you complete each screen and to close your browser when you log out of the survey.

#### **Browsers and Cookies**

The survey application works best with **Internet Explorer**. To download **Internet Explorer** for free, go to <a href="http://www.microsoft.com/windows/downloads/ie/getitnow.mspx">http://www.microsoft.com/windows/downloads/ie/getitnow.mspx</a>.

Once you have logged in to the EADA survey, a cookie is used to insure that you alone are allowed to access your institution's data and to insure that no unauthorized users can modify the existing data. A cookie is a small file that a website transfers to your computer's hard drive, usually to keep track of you while you are connected to that site. The cookies on the EADA survey site do not collect information about you; they collect information about your browser session. The cookie makes it easier for the EADA survey system to keep track of your login information, without having to provide the same information again as you move from one screen to another. The cookie and the information about your session are destroyed immediately after you close your browser, and are not stored on your computer. For more information, please click on the **Privacy Statement** link on the survey home page.

You can enable cookies as follows:

Enabling cookies with Internet Explorer 6

#### Option 1

- Open Internet Explorer.
- Go to Tools.
- Select Internet Options.
- Click on the Privacy tab
- You will see a sliding scroll bar. The bar should be set to Medium, which normally will allow our file to operate.
- Click on OK and exit.
- Click on Refresh. If this does not work, reboot your computer. If this still does not work, repeat this process but set the bar to Accept All Cookies. Make sure to set the bar back to its original setting after you exit the survey

## Option 2

- Open Internet Explorer.
- Go to Tools.
- Select Internet Options.
- Click on the Privacy tab.
- Click on the Sites button.
- Enter the EADA survey website URL (<a href="https://surveys.ope.ed.gov/athletics">https://surveys.ope.ed.gov/athletics</a>) in the field labeled Address of Website.
- Click on Allow to accept the web address.
- Click on OK and exit.
- Click on Refresh. If this does not work, reboot your computer.

# • Enabling cookies with **Internet Explorer 7 and above**:

# Option 1

- Open Internet Explorer.
- Click on the Tools button.
- Select Internet Options.
- Click on the Privacy tab.
- You will see a sliding scroll bar. The bar should be set to Medium, which normally will allow our file to operate.
- Click on OK and exit.
- Click on Refresh. If this does not work, reboot your computer. If this still does not work, repeat this process but set the bar to Accept All Cookies. Make sure to set the bar back to its original setting after you exit the survey

## Option 2

- Open Internet Explorer.
- Click on the Tools button.
- Select Internet Options.
- Click on the Privacy tab.
- Click on the Sites button.
- Enter the EADA survey website URL (<a href="https://surveys.ope.ed.gov/athletics">https://surveys.ope.ed.gov/athletics</a>) in the field labeled Address of Website.
- Click on Allow to accept the web address.
- Click on OK and exit.
- Click on Refresh. If this does not work, reboot your computer.

#### Getting Help with the Survey

Throughout the survey you will see various help features. On the left side of the Home Page, there are links to access the **Glossary** and this **User's Guide** in its entirety.

After you log in, a horizontal menu bar appears at the top of your screen. You can click on the **Help** link on the bar to access the **Glossary** and this **User's Guide**. You can also click on underlined terms on a screen to get their definitions from the **Glossary**.

On every survey screen you can click on the **Need help? Click here for screen instructions** link to get specific instructions from this user's guide for completing that screen.

**Help desk:** Assistance from the EADA Help Desk is available toll-free by telephone at (888) 233-5421 and e-mail (<u>EADAhelp@westat.com</u>) year-round. The telephone help desk is staffed from 8:00 a.m. to 6:00 p.m. Eastern time, Monday through Friday. Voice mail is available at all times.

If a staff member is not available when you call, please leave a message with the following information and someone will return your call as soon as possible:

- Your name and title
- The name of your school
- A brief description of why you are calling
- Your telephone number
- The best time to call you back

If you e-mail the help desk, please include the following information and someone will respond as soon as possible:

- Your name and title
- The name of your school
- A detailed description of the problem you are having

# Navigation

- **Data fields:** On each data entry screen you can move from one data field to the next using the tab key or you can position the cursor with your mouse to make a selection.
- **Screens:** You can move from screen to screen in two ways:
  - After you complete a screen, click on the Next or Previous button at the bottom of the screen to move through the survey screens sequentially.
  - Use the navigation menu on the left side of each screen to either move through the survey screens sequentially or to select a specific screen.

You can complete the survey during one session, or complete it over multiple sessions. Remember to save your data as you complete each screen and to close your browser when you log out of the survey.

Note: Do not use the back button to navigate through the screens as the system cannot save your text.

#### **Reset Button**

You can click on the **Reset** button at the bottom of the data entry screens to clear your entries and start again. Once you have saved your data on a screen, the **Reset** button will no longer clear your data from that screen. You will have to delete individual entries.

#### **Caveat boxes**

Each data entry screen has a caveat box. It provides space to write anything you think would help the reader better understand the data on that specific screen. For example, if your expenses this year were significantly greater than your expenses for the last few years, you can explain the increase. Or, you can explain that although the equestrian team has historically been a coed team, because there were no male participants this reporting year, that team is considered to be a women's team for the purposes of the EADA survey.

Caveats are optional in all but one case. If you select **Other Sports** on the Sports Selection screen, you must enter the name of the sport(s) in the caveat box on that screen.

Be concise when providing additional text as the caveat boxes allow only 1,000 characters each. We suggest that you double-check your entries for spelling and grammar because the caveats will appear along with your data on the Office of Postsecondary Education's public website.

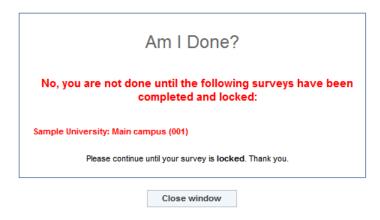

Note: Do not use the symbols < or > in your text. The survey system cannot save your text if you do.

#### **Errors**

If the system detects an error when you save data on a specific screen, you will see an icon next to the associated data field. Click on the icon to view an explanation of the problem. The icon indicates a fatal error that must be fixed before you can lock your survey. The icon indicates that a confirmation or explanation is needed before you can lock your survey. Enter your confirmation/explanation in the box provided. Please do not use the caveat box for this purpose. The confirmation/explanation text that you enter in the box will be read by our content specialists, but will not appear on the public website.

## Am I Done? Click here for answer link

Once you complete the preliminary survey screens (the screens that must be completed before you can enter your statistics), the "Am I Done? Click here for answer" link will appear in the Survey Status/Navigation menu on the left of your screen. If you are not sure whether or not you've completed the survey and locked it, click on the link for confirmation.

#### **Printing survey screens**

There are various ways to print your survey screens.

- To print blank screens:
  - Click on the **Print Survey Forms** link on the Home Page. Click on the **View Form** link. Click on the **Print Form(s)** link at either the top or bottom of the screen.
  - Click on the Forms for Printing link on the menu bar at the top of your screen. Click on Printable Read-Only Survey Form. Click on View Form. Click on Print Form(s) at either the top or bottom of the screen.

Note: You cannot use these forms for data entry. You must log into the system to enter and record your data.

- To print your completed screens:
  - Click on the Forms for Printing link on the menu bar at the top of your screen. Click on the Survey Forms (Data). Click on the Show Form. Click on the Print Form(s) at either the top or bottom of the screen.
  - After your survey has been locked, click on the Print Data/Get PDF link on the Survey Navigation/Status screen. Click on Show Form. Click on Print Form(s) at either the top or bottom of the screen.
- To print a PDF file:
  - Follow the instructions above for printing your completed screens. Click on **Get PDF File** at either the top or the bottom of the screen.

Note: We strongly recommend that you print a copy of your completed survey for your records.

## Other important information

- Reporting period: You are reporting for a 12-month period. Neither the time a particular expense is incurred (e.g., postseason) nor the source of revenues used to pay for a particular expense (e.g., fund-raising) during that time period is relevant. You are expected to maintain the same 12-month reporting period from year to year. That is, if your reporting period was from 07/01/2008 to 06/30/2009 for the previous year's survey, your reporting period should be from 07/01/2009 to 06/30/2010 for this year's survey. If you must change the 12-month reporting period, (for example, your institution's fiscal year changes) you must include all monies for that period even if you previously reported a portion of the monies on last year's survey when you had a different fiscal year. Be sure to explain the situation on the Supplemental Information screen.
- Use whole numbers: Enter whole numbers only, except for the Head Coaches' Salaries and Assistant Coaches' Salaries screens. Those screens ask for full-time equivalents (FTEs) which may be entered as decimals. Do not use commas or dollar signs.

■ What to do about combined budgets: If you have a sport in which the women's team and the men's team have one combined budget (for example, the women's tennis team and the men's tennis team), you should report revenues and expenses for each team in a manner proportionate to the number of participants on the women's team and the number of participants on the men's team. For special rules about combined budgets for track and field teams and combined budgets for swimming and diving teams please see the Sports Selection screen section of this guide.

## **E-Mail Correspondence**

At certain stages during the data collection period, e-mails are automatically generated by the survey system. For example, after you complete the Registration screen, the system will send an e-mail to the address listed on that screen acknowledging the survey registration. The system sends a similar e-mail after the survey is locked.

The Help Desk sends e-mails for various other reasons. If you haven't registered by a particular date, we send an e-mail as a friendly reminder so that your institution doesn't miss the deadline. If you enter your data, but forget to check for errors, or forget to lock your survey, we will contact you as a reminder. If questions arise upon reviewing your data, we will send an e-mail that asks you to contact us to resolve the problem.

#### A note about the National Collegiate Athletic Association (NCAA) Survey

Although the NCAA survey collects similar data to the EADA survey, the two surveys are not identical. In addition, the survey systems may not calculate data in the same manner. An institution may not submit the NCAA survey to the U.S. Department of Education in place of the EADA survey.

# The Web-Based Data Collection

# **Getting Started**

# **Registration Packet**

Each August, the U.S. Department of Education sends a packet by regular mail to the chief executive officer of every Title IV coeducational institution of higher education that participates in intercollegiate athletics. The packet contains two items. The first is a letter to inform the CEO about the upcoming EADA web-based data collection. The other item is a registration certificate which contains the following information necessary to access the survey website and enter data:

Contents	Description			
User id	Typically, the user id consists of an uppercase letter followed by 7 numbers. For example: E1234567.  Note: A new user id is issued every year.			
Password	The password consists of 9 characters, made up of uppercase letters, lowercase			
Lussword	letters, numbers, and symbols. For example: A1BcaaD%.			
	Note: A new password is issued every year.			
Web address	The web address is the address you must enter into your computer's browser to access the survey site. The site is located at: <a href="https://surveys.ope.ed.gov/athletics">https://surveys.ope.ed.gov/athletics</a> .			
Telephone	This is a toll-free number to call if you need help with the survey. The number is			
number for help	(888) 233-5421.			
desk				
E-mail address for	This is the address to use if you would like help with the survey via e-mail. The			
help desk	address is: <a href="mailto:eadahelp@westat.com">eadahelp@westat.com</a> .			
Data collection	These are the dates of the current data collection: Sept. 10 to Oct. 29.			
dates				

Although schools receive new user ids and passwords in August, the survey site does not open until the start of data collection in September. The exact date appears on the registration certificate. You will not be able to log on to the site until that day. The data collection will close at midnight EST on the day indicated on the registration certificate. **There are no extensions**.

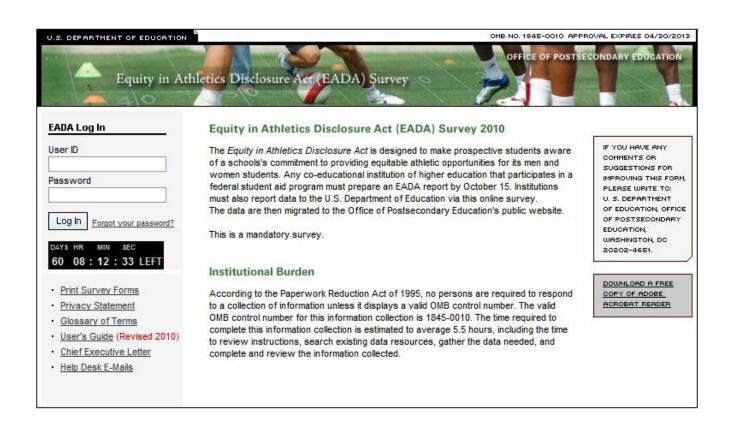

Please note that although you have until the deadline printed on the registration certificate to complete your survey, it is better to complete it as soon as possible so that if you have any problems or questions, you can receive timely assistance by telephone or e-mail from our help desk staff. The later in the data collection period, the busier the help desk becomes.

# Log In

To access the survey, enter <a href="https://surveys.ope.ed.gov/athletics">https://surveys.ope.ed.gov/athletics</a> into your browser. The survey Home Page is the first screen you will see.

Enter your 2010 user id and password in the boxes under **EADA Log In** on the upper left side of your computer screen. They are case sensitive so you must enter them exactly as they are shown on the registration certificate. Do not tell the survey application to remember your password as you will have to change it on the Change Password screen. Next, click on the **Log In** button.

If you are attempting to log in for the first time, but have misplaced your user id and/or password, please call the EADA Help Desk toll-free at (888) 233-5421 or e-mail the help desk at eadahelp@westat.com for assistance.

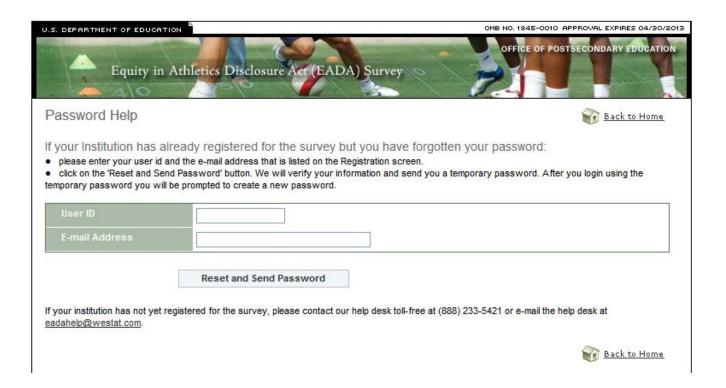

# **Forgot Your Password**

If you do misplace or forget your new password, click on the **Forgot your password?** link next to the **Log In** button.

Enter your user id and the e-mail address that is listed on the survey Registration screen. The survey system will reset your password and send it to that address. If the e-mail address you enter does not match the address on the Registration screen or if it is not a valid address, the system cannot send your password and you must contact the EADA Help Desk toll-free at (888) 233-5421 or e-mail the help desk at <a href="mailto:eadahelp@westat.com">eadahelp@westat.com</a> for assistance.

**Note:** If your institution is participating in the EADA Survey for the first time, and you forget the password for your initial log in, you must contact the help desk by telephone or e-mail because you will not yet have entered an e-mail address on the Registration screen.

# **Survey Eligibility**

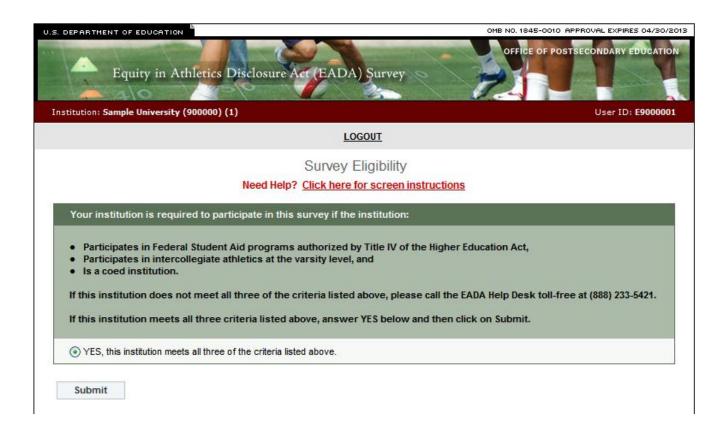

The purpose of the Survey Eligibility screen is to confirm that your institution is required to participate in the EADA survey. The term "coeducational" refers to the composition of the school's undergraduate student body. If your school only has female undergraduates or only has male undergraduates, the EADA does not apply to your school's intercollegiate athletic program. If your school has traditionally been a single-sex school but now enrolls even one undergraduate student of the opposite sex, your school is considered to be coeducational for the purposes of the EADA and must participate in the survey.

Read the three criteria. If your institution meets all three, click on the **Submit** button at the bottom of the screen. This will take you to the Change Password screen.

If your institution does not meet all three criteria:

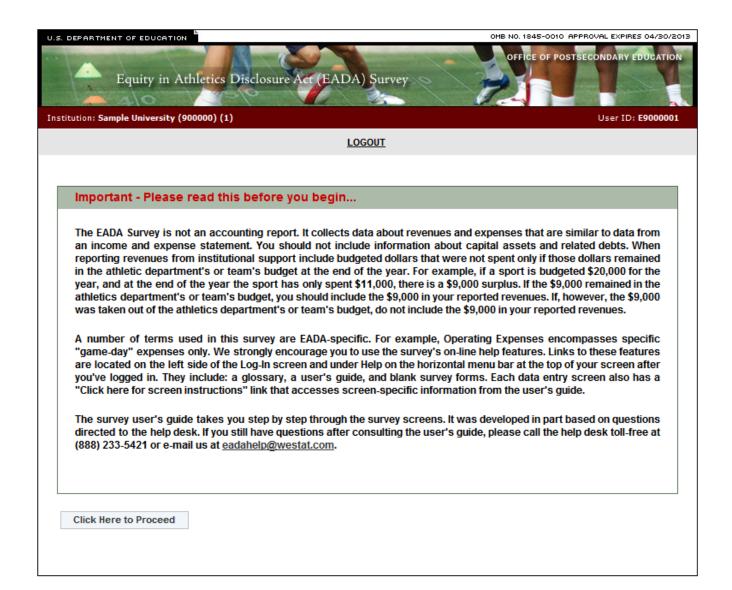

Call the EADA Help Desk toll-free at (888) 233-5421.

Note: If your institution has multiple campuses that combine their varsity athletics programs, or if your school is part of a consortium that combines its varsity athletics programs, please call the help desk for guidance on how to report before proceeding with the survey.

# Important—Please read this before you begin...

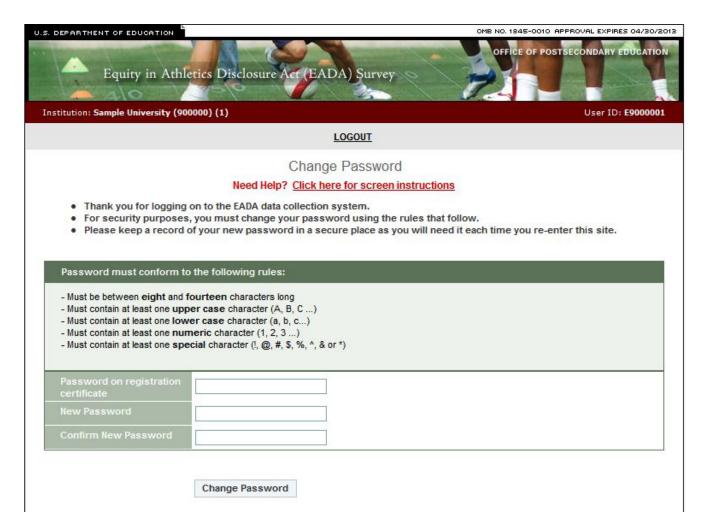

This screen is designed to assist you in understanding the survey categories and to help you avoid some common mistakes. We urge you to read it before you enter any data.

# **Change Password**

For security reasons, the Change Password screen prompts you to change the password that you initially used to log in to the survey. Use the rules printed on the screen to create your new password and follow these steps:

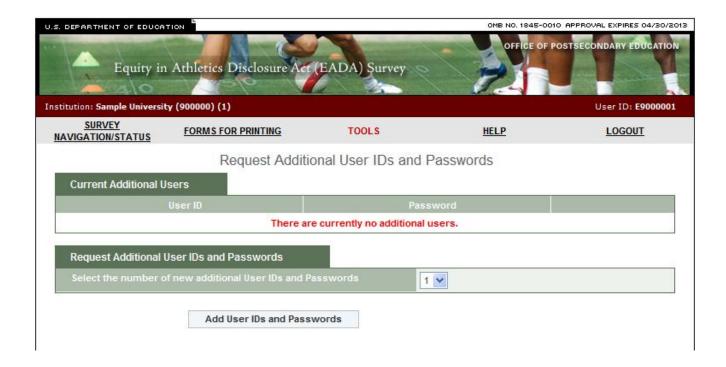

- 1. Enter your password in the **Password on registration certificate** field.
- 2. Enter your new password in the **New Password** field.
- 3. Enter it again in the **Confirm New Password** field.
- 4. Click on the **Change Password** button.

Keep a record of your new password in a secure place as it will be the password you need each time you log in to the survey. That is, the password printed on the registration certificate will become inactive after you create a new one, and only the new password will allow you to re-enter the survey.

# **Assigning More Than One Password**

You can assign multiple passwords for additional users. After you have completed the survey Registration screen select **Tools** from the main menu bar at the top of the screen. Click on **Additional Users/Passwords**. Under Request Additional User IDs and Passwords you can select up to 6 additional passwords from the drop down box. Click on **Add User IDs and Passwords**. Although the additional user will have access to your institutions survey only the initial user will have the ability to lock the survey upon completion. When the additional users log in for the first time they will be prompted to change their password just as the primary user did on the Change Password screen.

# Registration

You must complete this screen before you can continue with the survey. You will be asked to complete this screen only once. Upon subsequent logins, you will be taken directly to the Survey Navigation/Status screen.

# Information you need to complete this screen:

- Enter the contact information for the individual with primary responsibility for completing the survey. This is the person we will contact if we have questions about the data.
- Make sure your e-mail address is correct and then enter it again in the "Confirm e-mail address" field. If it is incorrect, it will delay the receipt of important information about the status of your survey.
- We suggest that you review/complete the Registration screen when the EADA Survey site first opens so that we know you were able to log in.

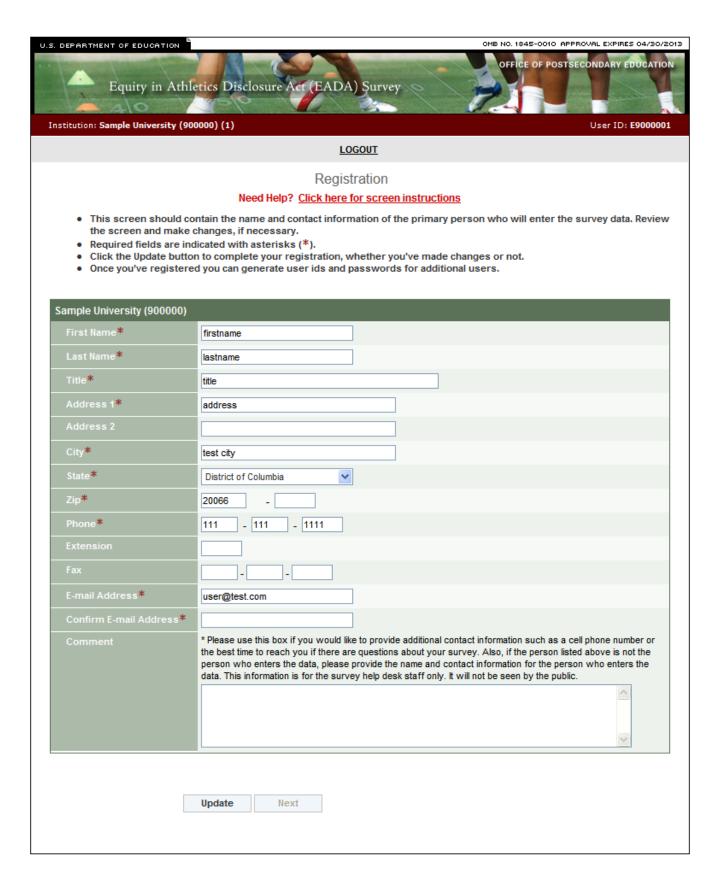

#### **Screen instruction:**

This screen should contain the name and contact information of the primary person who will enter the survey data. Review the screen and make changes, if necessary.

#### **Directions:**

- 1. If your institution is participating in this survey for the first time, complete the screen, making sure to fill in every field that is marked with an asterisk (\*). If you do not enter information in the required fields, you will not be able to proceed with the survey.
- 2. If your institution participated in the previous year's survey, the screen will be pre-filled. Review the information and make changes if necessary.
- 3. Optional: Enter additional contact information in the Comment box.
- 4. After you finish completing, reviewing, or updating the screen, click on the **Update** button to continue (even if you did not make any changes.)

Note: If you want to edit the **Registration** screen after it has been updated and you have moved on to another screen, click on **Survey Navigation/Status** on the horizontal menu bar at the top of your screen and you will see the **Registration** link under Navigation Menu.

# **Survey Navigation/Status**

The Survey Navigation/Status screen is the hub of the survey. It shows how far you've progressed in the survey and what, if anything, you need to do next. It provides links to the various survey screens and allows you to go back and review or change data.

You can access the Survey Navigation/Status screen from other survey screens in either of two ways: (1) by clicking on the **Survey Navigation/Status** link on the horizontal menu bar at the top of each screen or (2) by clicking on the **Survey Navigation/Status** link at the bottom of the Navigation Menu on the left side of each screen.

How to use the menu:

**Preliminary screens**: When you begin your survey, the menu will contain links to four preliminary screens:

- Registration
- Institution Identification
- Screening Questions
- Sports Selection

**Data entry screens:** Once you have updated the preliminary screens, links to the remaining data entry screens for your institution will be visible and available in the menu. These links will be highlighted in yellow. Instructions for completing these screens are included in this user's guide. Links that are highlighted in gray are not applicable to your institution (as determined by your answers to the Screening Questions) and are not active.

**Check for Errors:** Once you have completed the data entry screens, you must access your Error Report. To do this, click on the "Check for Errors" link in the menu. If the survey system has detected any errors, you must fix them before you can lock the survey. Instructions for fixing errors are located further on in this user's guide.

"Am I Done? Click here for answer": When you think that your survey is complete and locked, click on this link below the menu for confirmation.

## Institution Identification

This screen asks for contact information for your institution and your athletic department, the reporting year for which you will enter data, the number of full-time undergraduate students at your institution, and your athletic sanctioning body.

## Information you need to complete this screen:

- The contact information for your institution's chief administrative officer will be taken from this screen and used on the mailing label for next year's survey registration packet. Please make sure that the information is current.
- If your institution completed a survey for the prior year, most of the information will be prefilled. You may update this information with the exception of the hard-coded institution name and address. If the name or address of your institution has changed, please notify the agency that accredits your institution. Note that you may update the name or address on the Supplemental Information screen so that readers are aware of the change.
- The pre-filled number of full-time undergraduates is taken from your institution's Fall IPEDS Survey. The number should not be changed unless it was reported incorrectly on that survey. To change the number, please call the help desk toll-free at (888) 233-5421.
- You are expected to maintain the same 12-month reporting period from year to year. That is, if your reporting period was from 07/01/2008 to 06/30/2009 for the previous year's survey, your reporting period should be from 07/01/2009 to 06/30/2010 for this year's survey. If you must change the 12-month reporting period, because, for example, your institution's fiscal year changes, be sure to note the change and the reason for it on the Supplemental Information screen.
- You can select only one athletic sanctioning body on this screen. If your institution has multiple varsity sports and multiple sanctioning bodies, you may note this on the Supplemental Information screen if you'd like.

#### **Screen instruction:**

Please enter/review all applicable information.

## **Directions:**

- 1. If your institution is participating in this survey for the first time, complete the screen.
- 2. If your institution participated in this survey last year, review the pre-filled information and make any necessary changes.
- 3. After you complete/review the screen, click on Update to record your information. If the system does not detect any errors, you will get the message "Updated Successfully." Click on the **Return to Survey Navigation/Status** button to continue.

**Note:** If you want to edit the **Institution Identification** screen after it has been updated and you have moved on to another screen, click on the **Survey Navigation/Status** link on the horizontal menu bar at the top of your screen and select the **Institution Identification** link.

# **Screening Questions**

### Information you need to complete this screen:

- Respond to these questions carefully, as the answers you provide will determine which subsequent survey screens are appropriate for your institution.
- A **coed team** is a single team on which men and women compete as equals. A coed team is **not:** 
  - A team on which both men and women are eligible to join, but that has only men or only women participants for the reporting period.
  - A men's team and a women's team traveling on the same bus or sharing equipment or other resources, such as a budget.
  - A men's team and a women's team that practice together but do not compete on the same team.
- Graduate assistants and volunteers who served as assistant coaches are assistant coaches for the purposes of this survey.
- If you save the data on this screen, then return to the screen to make changes to screening question #2, note the following: 1) If you select an additional type of team remember to include associated data for that type of team on subsequent screens; 2) If you delete a type of team but have already entered associated data on other screens, all associated data for that type of team will be deleted from subsequent screens. However, because the survey system has to recalculate the totals, you must re-save every screen.

#### **Screen instruction:**

Please answer these questions carefully as your answers will determine which subsequent data entry screens are appropriate for your institution.

#### **Directions:**

Question 1: How will you report Operating (Game-day) Expenses?

Select either "By Team" or "Per Participant."

Question 2: Select the types of varsity sports teams at your institution.

# Question 3: Do any of your teams have assistant coaches?

If you have any assistant coaches, select **Yes** and indicate whether they are assistant coaches for Men's Teams, Women's Teams, and/or Coed Teams. If you do not have assistant coaches for any of your varsity sports teams, select **No**.

When you have completed this screen, click on **Save** to record your data. If no errors are detected, the next screen will read **Data saved successfully**. Click on the **Next** button to continue.

# **Sports Selection**

Note: Instructions in this user's guide address men's, women's, and coed teams. Please apply the information as appropriate for your school. For example, if you have women's teams only, follow the instructions that apply to women's teams and ignore the instructions that apply to men's teams and coed teams.

#### Information you need to complete this screen:

- Include all **varsity** teams, not just those that are governed by your institution's athletic sanctioning body.
- Varsity team is a team that is designated or defined by its institution or an athletic association as a varsity team or primarily competes against other teams that are designated or defined by their institutions or athletic associations as varsity teams.
- To be considered a varsity sport under the EADA, an activity's primary purpose must be to engage in intercollegiate competition. If you indicate in the caveat box that your "other sports" are Dancing and/or Cheerleading, please also specify in the caveat box that your institution has a letter from the Office of Civil Rights confirming that the OCR has determined that Dancing and/or Cheerleading are varsity sports at your institution.
- A **coed team** is a single team on which men and women compete as equals. A coed team is **not:** 
  - A team on which both men and women are eligible to join, but that has only men or only women participants for the reporting period.
  - A men's team and a women's team traveling on the same bus or sharing equipment or other resources, such as a budget.
  - A men's team and a women's team that practice together but do not compete on the same team.
- If your institution has track and field teams and/or swimming and diving teams, you have a choice regarding how you report for them:
  - If you have a combined budget for your track and field teams, you should choose Track and Field and Cross Country (combined), and report for these teams in a combined manner throughout the survey. (If you have, for example, outdoor track and cross country, but not indoor track, you can still choose Track and Field and Cross Country (combined), and then explain in the caveat box that your institution does not have indoor track.) If you choose to report for these teams in a combined manner, do not check each individual track and field team. Also, do not combine your men's teams with your women's teams. That is, if you choose Track and Field and Cross Country (combined), under men's teams, and you also want to report in a combined manner for your women's track and field teams, you must choose Track and Field and Cross Country (combined), under women's teams as well.
  - If you have a combined budget for your swimming and diving teams, you should choose the Swimming and Diving (combined) category, and report for these teams in a combined manner throughout the survey. If you choose to report for these teams in a combined manner, do not check Swimming or Diving. Also, do not combine your men's teams with your women's teams. That is, if you choose Swimming and Diving

(combined) under men's teams, and you also want to report in a combined manner for your women's swimming and diving teams, you must choose Swimming and Diving (combined) under women's teams as well.

- If your institution had **start-up costs** for a team that did not have any games during the reporting period, do not select that sport on this screen. Include the start-up monies only on the Total Revenues and Total Expenses screens in the "Not Allocated by Gender/Sport" field. You can explain this situation in the caveat box on the Sports Selection screen.
- If you save the data on this screen, then return to the screen to make changes, note the following: 1) If you select an additional team remember to include associated data for that sport on subsequent screens; 2) If you delete a sport but have already entered associated data on other screens, all associated data for that sport will be deleted from subsequent screens. However, because the survey system has to recalculate the totals, you must re-save every screen.

## **Screen Instructions:**

Select the varsity sports teams at your institution.

- 1. Identify all of your men's varsity sports teams, all of your women's varsity sports teams, and all of your coed varsity sports teams, as appropriate.
- 2. If you select Other Sports, identify the sport(s) in the caveat box.
- 3. Click on the **Save** button at the bottom of the screen. If no errors are detected, the next screen will read **Data saved successfully**. Click on the **Next** button to continue.

# **Athletics Participation**

Note: Instructions in this user's guide address men's, women's, and coed teams. Please apply the information as appropriate for your school. For example, if you have women's teams only, follow the instructions that apply to women's teams and ignore the instructions that apply to men's teams and coed teams.

# Information you need to complete this screen:

- **Participants** are students who, as of the day of a varsity team's first scheduled contest
  - (A) Are listed by the institution on the varsity team's roster
  - (B) Receive athletically related student aid
  - (C) Practice with the varsity team and receive coaching from one or more varsity coaches.

A student who satisfies one or more of these criteria is a participant, including a student on a team the institution designates or defines as junior varsity, freshman, or novice, or a student withheld from competition to preserve eligibility (i.e., a redshirt), or for academic, medical, or other reasons.

#### ■ Include:

- Fifth-year team members who have already received a bachelor's degree.
- A student who participates on two teams, for example, the football team and the lacrosse team, as a participant on each of the teams.

#### ■ Do not include:

- Individuals who joined the team after the day of the first scheduled contest.
- Male practice players who are listed on the women's team roster as of the day of the first scheduled contest should be counted as participants on the women's team.
- A scheduled scrimmage meets the definition of a team's first scheduled contest if the score counts. If the scrimmage is played just for fun or practice and the result of the scrimmage doesn't matter in the long run, it wouldn't count.
- Varsity team is a team that is designated or defined by its institution or an athletic association as a varsity team or primarily competes against other teams that are designated or defined by their institutions or athletic associations as varsity teams.
- A **coed team** is a single team on which men and women compete as equals. If your institution fields a team on which both men and women may participate, but in the year for which you are reporting, that team did not have any women participants or did not have any men participants, you may not include that team as a coed sport on the current survey. Instead, include it as a men's team or a women's team.
- Unduplicated count *means a head count of all of the participants on at least one varsity team, by gender.* If an individual participates on more than one varsity team, include that individual only once in your unduplicated count. In other words, picture all of your student-athletes standing in a gym at the same time. Count the males. That is the unduplicated count for men. (The number must be equal to or less than the total number of male participants.) Count the females. That is the unduplicated count for women. (The number must be equal to or less than the total number of female participants.)

An example would be a student athlete who is on the men's tennis team and the men's rowing team. Count him as one participant on the men's tennis team and one participant on the men's rowing team. Then count him as one participant in the unduplicated count.

■ If you save the data on this screen, then return to the screen to make changes, please note you must re-save every screen because the survey system has to recalculate the totals.

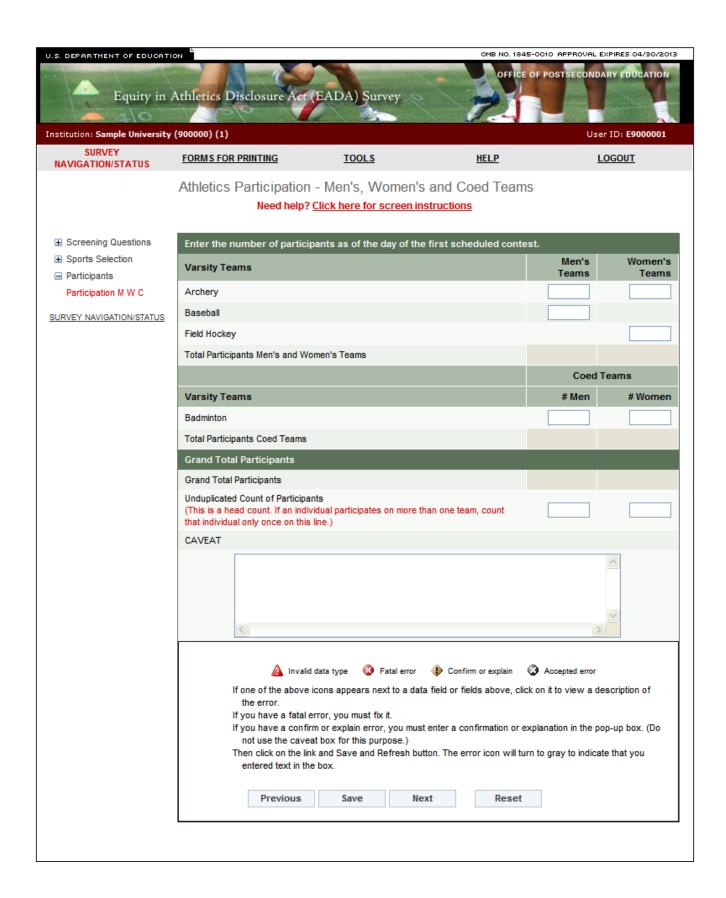

#### **Screen instruction:**

Enter the number of participants as of the day of the first scheduled contest.

#### **Directions:**

- 1. Enter the number of participants on each of the men's teams listed on the screen.
- 2. Enter the number of participants on each of the women's teams listed on the screen.
- 3. Enter the number of male participants on each of the coed teams listed on the screen.
- 4. Enter the number of female participants on each of the coed teams listed on the screen.
- 5. Enter the unduplicated count of male participants.
- 6. Enter the unduplicated count of female participants.
- 7. Click on the **Save** button at the bottom of the screen to record your data.

Note that the system will automatically calculate the data for any other category on this screen.

## **Head Coaches Men's Teams**

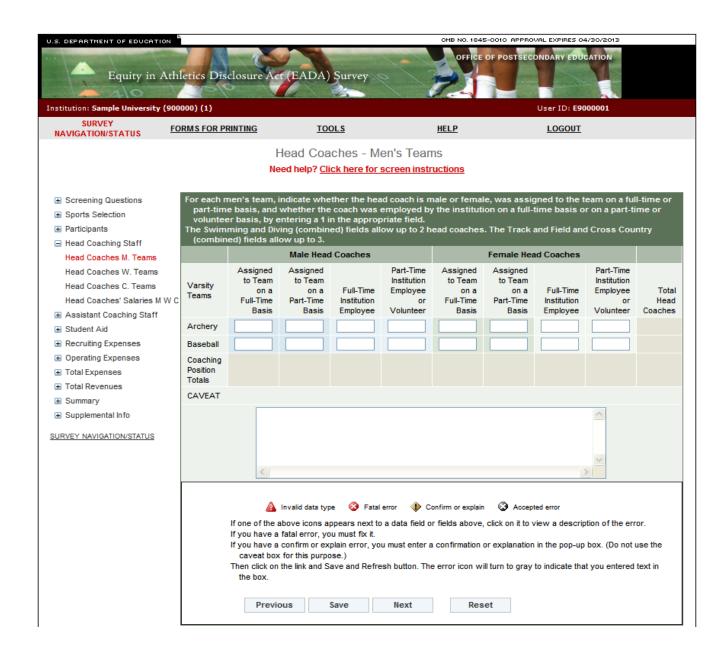

### Information you need to complete this screen:

- Graduate assistants and volunteers who served as head coaches are considered head coaches for the purposes of the EADA.
- A **full-time coach** is someone who is assigned to one team on a full-time basis and is a full-time employee of the institution.
  - If an individual coaches more than one team, that individual is not assigned to one team on a full-time basis. That individual is assigned to both teams on a part-time basis.
  - If an individual coaches and has other non-coaching duties such as teaching or administrative, that individual is assigned to a team on a part-time basis and is a full-time or part-time institution employee.
- If a team changes coaches in mid-season, this still counts as one coach for the team. You can use the caveat box to explain the situation if you like.
- If your institution has a team with co-head coaches, enter one as the head coach and the other as an assistant coach. You can explain in the caveat box that you made this adjustment for the purposes of the EADA Survey. There are four exceptions: (1) you may enter up to three head coaches for Track and Field and Cross Country (combined); (2) you may enter up to two head coaches for Swimming and Diving (combined); (3) you may enter a head coach for each of the teams you list in Other Sports and (4) if your school has multiple co-educational campuses with the same type of varsity sports teams, you can report a head coach for each of the campuses. (For example, if you are reporting for two campuses that have baseball teams, you can enter 2 head coaches for baseball.)

#### **Screen instruction:**

For each men's team, indicate whether the head coach is male or female, was assigned to the team on a full-time or a part-time basis, and whether the coach was employed by the institution on a full-time basis or on a part-time or volunteer basis, by entering a 1 in the appropriate field.

- 1. Enter the number of male head coaches assigned to each men's team on a full-time basis.
- 2. Enter the number of male head coaches assigned to each men's team on a part-time basis.
- 3. Indicate whether each individual is a full-time employee of the institution or a part-time employee/volunteer.
- 4. Enter the number of female head coaches assigned to each men's team on a full-time basis.
- 5. Enter the number of female head coaches assigned to each men's team on a part-time basis.
- 6. Indicate whether each individual is a full-time employee of the institution or a part-time employee/volunteer.
- 7. Click on the **Save** button at the bottom of the screen to record your data.

## **Head Coaches Women's Teams**

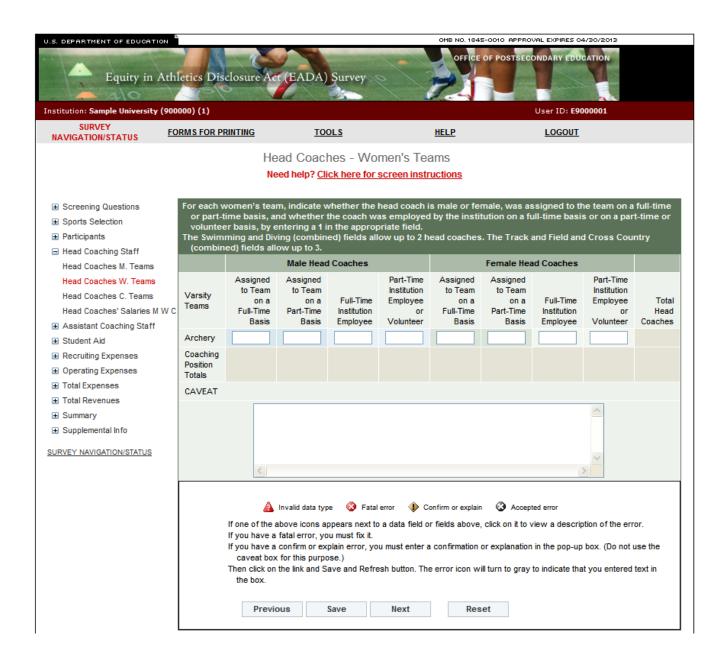

### Information you need to complete this screen:

- Graduate assistants and volunteers who served as head coaches are considered head coaches for the purposes of the EADA.
- A **full-time coach** is someone who is assigned to one team on a full-time basis and is a full-time employee of the institution.
  - If an individual coaches more than one team, that individual is not assigned to one team on a full-time basis. That individual is assigned to both teams on a part-time basis.
  - If an individual coaches and has other non-coaching duties such as teaching or administrative, that individual is assigned to a team on a part-time basis and is a full-time or part-time institution employee.
- If a team changes coaches in mid-season, this still counts as one coach for the team. You can use the caveat box to explain the situation if you like.
- If your institution has a team with co-head coaches, enter one as the head coach and the other as an assistant coach. You can explain in the caveat box that you made this adjustment for the purposes of the EADA Survey. There are four exceptions: (1) you may enter up to three head coaches for Track and Field and Cross Country (combined); (2) you may enter up to two head coaches for Swimming and Diving (combined); (3) you may enter a head coach for each of the teams you list in Other Sports and (4) if your school has multiple co-educational campuses with the same type of varsity sports teams, you can report a head coach for each of the campuses. (For example, if you are reporting for two campuses that have baseball teams, you can enter 2 head coaches for baseball.)

#### **Screen instruction:**

For each women's team, indicate whether the head coach is male or female, was assigned to the team on a full-time or a part-time basis, and whether the coach was employed by the institution on a full-time basis or on a part-time or volunteer basis, by entering a 1 in the appropriate field.

- 1. Enter the number of male head coaches assigned to each women's team on a full-time basis.
- 2. Enter the number of male head coaches assigned to each women's team on a part-time basis.
- 3. Indicate whether each individual is a full-time employee of the institution or a part-time employee/volunteer.
- 4. Enter the number of female head coaches assigned to each women's team on a full-time basis.
- 5. Enter the number of female head coaches assigned to each women's team on a part-time basis.
- 6. Indicate whether each individual is a full-time employee of the institution or a part-time employee/volunteer.
- 7. Click on the **Save** button at the bottom of the screen to record your data.

## **Head Coaches Coed Teams**

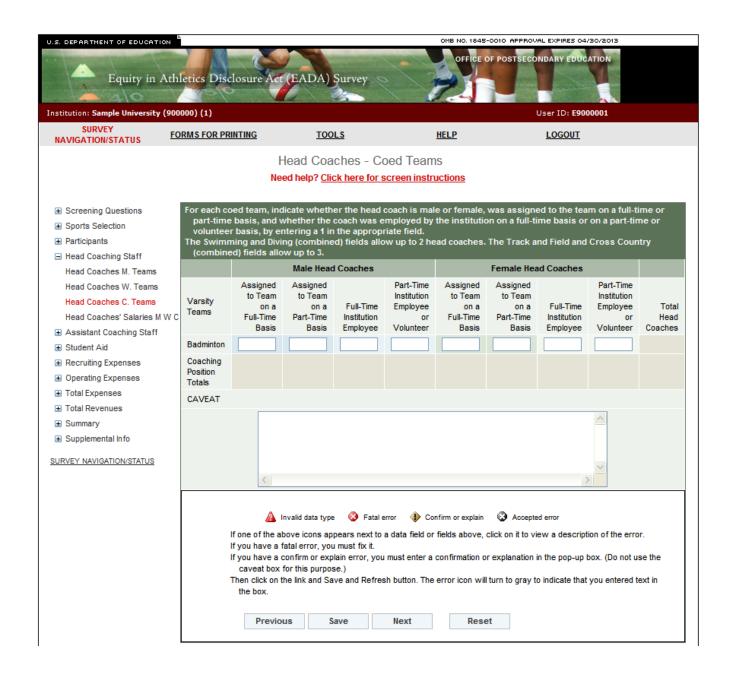

### Information you need to complete this screen:

- Graduate assistants and volunteers who served as head coaches are considered head coaches for the purposes of the EADA.
- A **full-time coach** is someone who is assigned to one team on a full-time basis and is a full-time employee of the institution.
  - If an individual coaches more than one team, that individual is not assigned to one team on a full-time basis. That individual is assigned to both teams on a part-time basis.
  - If an individual coaches and has other non-coaching duties such as teaching or administrative, that individual is assigned to a team on a part-time basis and is a full-time or part-time institution employee.
- If a team changes coaches in mid-season, this still counts as one coach for the team. You can use the caveat box to explain the situation if you like.
- If your institution has a team with co-head coaches, enter one as the head coach and the other as an assistant coach. You can explain in the caveat box that you made this adjustment for the purposes of the EADA Survey. There are four exceptions: (1) you may enter up to three head coaches for Track and Field and Cross Country (combined); (2) you may enter up to two head coaches for Swimming and Diving (combined); (3) you may enter a head coach for each of the teams you list in Other Sports and (4) if your school has multiple co-educational campuses with the same type of varsity sports teams, you can report a head coach for each of the campuses. (For example, if you are reporting for two campuses that have baseball teams, you can enter 2 head coaches for baseball.)

### **Screen instruction:**

For each coed team, indicate whether the head coach is male or female, was assigned to the team on a full-time or a part-time basis, and whether the coach was employed by the institution on a full-time basis or on a part-time or volunteer basis, by entering a 1 in the appropriate field.

- 1. Enter the number of male head coaches assigned to each coed team on a full-time basis.
- 2. Enter the number of male head coaches assigned to each coed team on a part-time basis.
- 3. Indicate whether each individual is a full-time employee of the institution or a part-time employee/volunteer.
- 4. Enter the number of female head coaches assigned to each coed team on a full-time basis.
- 5. Enter the number of female head coaches assigned to each coed team on a part-time basis.
- 6. Indicate whether each individual is a full-time employee of the institution or a part-time employee/volunteer.
- 7. Click on the **Save** button at the bottom of the screen to record your data.

## **Head Coaches' Salaries**

Note: Instructions in this user's guide address men's, women's, and coed teams. Please apply the information as appropriate for your school. For example, if you have women's teams only, follow the instructions that apply to women's teams and ignore the instructions that apply to men's teams and coed teams.

## Information you need to complete this screen:

- To calculate the average salary per head coach for men's teams, add all of the men's head coaches' salaries and divide the total by the number of paid men's head coaches. Use this same method for women's and coed teams, as applicable.
  - Include only institutional compensation. That is, all wages and bonuses the institution pays an individual for coaching. (Do not include benefits in this calculation. Benefits should be included along with salaries and bonuses on the Total Revenues and Total Expenses screens.)
    - You may base your report on a coach's W-2 form so long as that document contains information that conforms to the U.S. Department of Education's interpretation of the EADA statute. (Note that a W-2 form may contain information that is not required by the statute.)
    - Include in a coach's salary such payments as those associated with sports camps, television shows, and shoe contracts only if they form part of the coach's institutional compensation for coaching.
    - If a third party (e.g., the school's media partner) pays some of a coaches' salary, include the amount only if the money is paid to the school which in turn pays it to the individual for coaching. Do not include money paid directly to the coach from the media partner or other third party.
  - Do not include volunteer head coaches in your salary calculations.
  - If a head coach has responsibilities for more than one team, and the institution does not allocate that coach's salary by team, divide the salary by the number of teams for which the coach has responsibility and allocate the salary among the teams on a basis consistent with the coach's responsibilities for each team.
  - If a faculty member also coaches, only the portion of his or her salary attributed to coaching activities should be included in the calculation of average salary. If coaching is part of the regular workload of a faculty member and the institution does not differentiate the compensation paid for teaching from compensation paid for coaching, the institution must make a reasonable effort to attribute an appropriate portion of the salary for coaching.
  - If a coach is replaced by another coach during the reporting year, combine the money paid to both individuals for that position. (The FTE should not change.) You can explain this situation in the caveat box.
- Full-time equivalent (FTE) refers to a measurement based on 100% for full-time. A full-time head coach's FTE is equal to 1. An institution can calculate FTE in various ways:
  - Use the length of the sport's season and compare with the calendar year. If a sport is four months in length, the FTE would then be 0.33.

- Look at the amount of time a coach spends coaching and compare that with a full-time position. A full-time employee is paid for 40 hours/week, 52 weeks/year. A coach works 15 hours/week for 20 weeks. The FTE would then be 0.14. For assistance in calculating the FTE based on hours per week, please refer to the table on page 39 of this user's guide.
- Take the salary that you are paying the individual for coaching and relate that to what a full-time salary would be. For example, if you are paying a coach \$5,000 and a full-time salary would be \$20,000, the FTE would be 0.25.
- If a full-time employee is paid for 12 credit hours and a part-time coach is paid for 3, the FTE would then be 0.25.
- If a 10-month contract is a full-time contract for employees at your school, a coach with a 10-month contract should be counted as 1 FTE. If a coach has a 10-month contract, but other employees at your school have 12-month contracts, the coach is a part-time coach and should be counted as less than 1 FTE.

#### **Screen instruction:**

Enter only salaries and bonuses that your institution pays head coaches as compensation for coaching. Do not include benefits on this screen. Do not include volunteer coaches in calculating the average salary and the Full-Time Equivalent (FTE) Total.

### **Directions:**

For Men's Teams (if applicable):

- 1. Enter the average annual institutional salary per head coach.
- 2. Enter the number of head coaches included in the average.
- 3. Enter the number of volunteer head coaches not included in the average.
- 4. Enter the number of full-time equivalents (FTEs) included in the average.

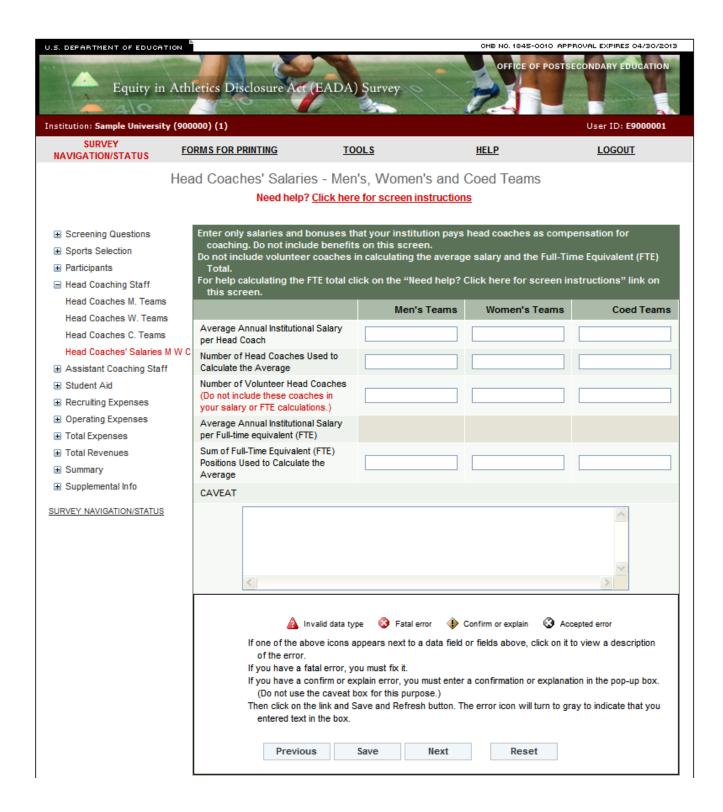

For Women's Teams (if applicable):

- 5. Enter the average annual institutional salary per head coach.
- 6. Enter the number of head coaches included in the average.
- 7. Enter the number of volunteer head coaches not included in the average.
- 8. Enter the number of full-time equivalents (FTEs) included in the average.

For Coed Teams (if applicable):

- 9. Enter the average annual institutional salary per head coach.
- 10. Enter the number of head coaches included in the average.
- 11. Enter the number of volunteer head coaches not included in the average.
- 12. Enter the number of full-time equivalents (FTEs) included in the average.
- 13. Click on the Save button at the bottom of the screen to record your data.

Note that the system will automatically calculate the data for all other categories after the screen has been saved.

## **Assistant Coaches Men's Teams**

## Information you need to complete this screen:

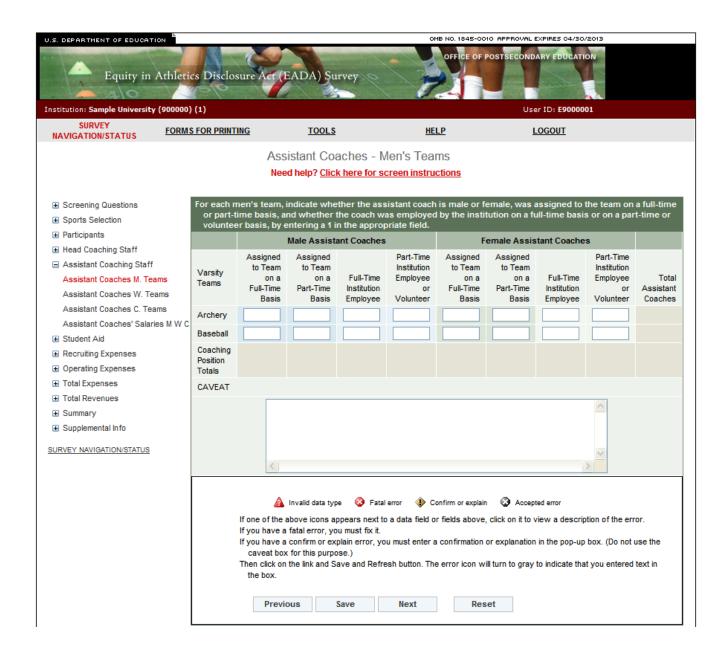

- Graduate assistants and volunteers who served as assistant coaches are considered assistant coaches for the purposes of the EADA.
- A **full-time coach** is someone who is assigned to one team on a full-time basis and is a full-time employee of the institution.
  - If an individual coaches more than one team, that individual is not assigned to one team on a full-time basis. That individual is assigned to both teams on a part-time basis.
  - If an individual coaches and has other non-coaching duties such as teaching or administrative, that individual is assigned to a team on a part-time basis and is a full-time or part-time institution employee.
- If a team changes coaches in mid-season, this still counts as one coach for the team. You can use the caveat box to explain the situation if you like.

## **Screen instruction:**

For each men's team, indicate whether the assistant coach is male or female, was assigned to the team on a full-time or a part-time basis, and whether the coach was employed by the institution on a full-time basis or on a part-time or volunteer basis, by entering a 1 in the appropriate field.

#### **Directions:**

- 1. Enter the number of male assistant coaches assigned to each men's team on a full-time basis.
- 2. Enter the number of male assistant coaches assigned to each men's team on a part-time basis.
- 3. Indicate whether each individual is a full-time employee of the institution or a part-time employee/volunteer.
- 4. Enter the number of female assistant coaches assigned to each men's team on a full-time basis.
- 5. Enter the number of female assistant coaches assigned to each men's team on a part-time basis.
- 6. Indicate whether each individual is a full-time employee of the institution or a part-time employee/volunteer.
- 7. Click on the **Save** button at the bottom of the screen to record your data.

## **Assistant Coaches Women's Teams**

## Information you need to complete this screen:

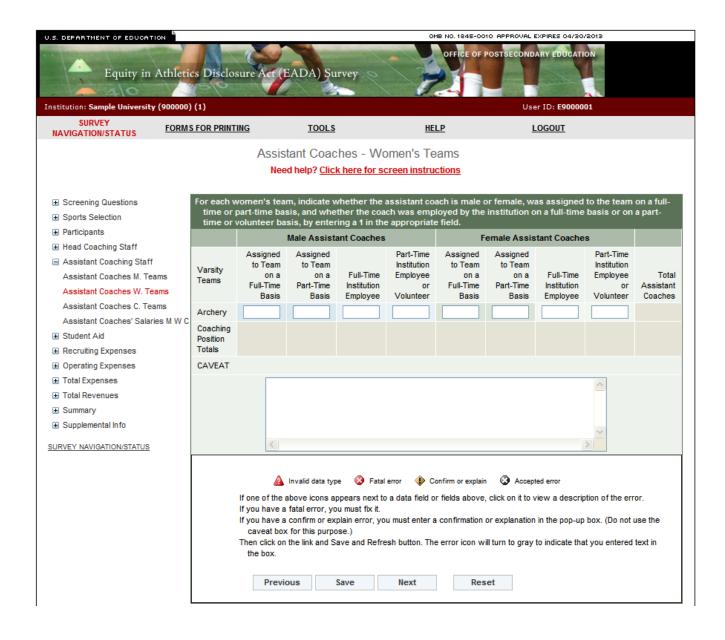

- Graduate assistants and volunteers who served as assistant coaches are considered assistant coaches for the purposes of the EADA.
- A **full-time coach** is someone who is assigned to one team on a full-time basis and is a full-time employee of the institution.
  - If an individual coaches more than one team, that individual is not assigned to one team on a full-time basis. That individual is assigned to both teams on a part-time basis.
  - If an individual coaches and has other non-coaching duties such as teaching or administrative, that individual is assigned to a team on a part-time basis and is a full-time or part-time institution employee.
- If a team changes coaches in mid-season, this still counts as one coach for the team. You can use the caveat box to explain the situation if you like.

### **Screen instruction:**

For each women's team, indicate whether the assistant coach is male or female, was assigned to the team on a full-time or a part-time basis, and whether the coach was employed by the institution on a full-time basis or on a part-time or volunteer basis, by entering a 1 in the appropriate field.

#### **Directions:**

- 1. Enter the number of male assistant coaches assigned to each women's team on a full-time basis.
- 2. Enter the number of male assistant coaches assigned to each women's team on a part-time basis.
- 3. Indicate whether each individual is a full-time employee of the institution or a part-time employee/volunteer.
- 4. Enter the number of female assistant coaches assigned to each women's team on a full-time basis
- 5. Enter the number of female assistant coaches assigned to each women's team on a part-time basis.
- 6. Indicate whether each individual is a full-time employee of the institution or a part-time employee/volunteer.
- 7. Click on the **Save** button at the bottom of the screen to record your data.

## **Assistant Coaches Coed Teams**

## Information you need to complete this screen:

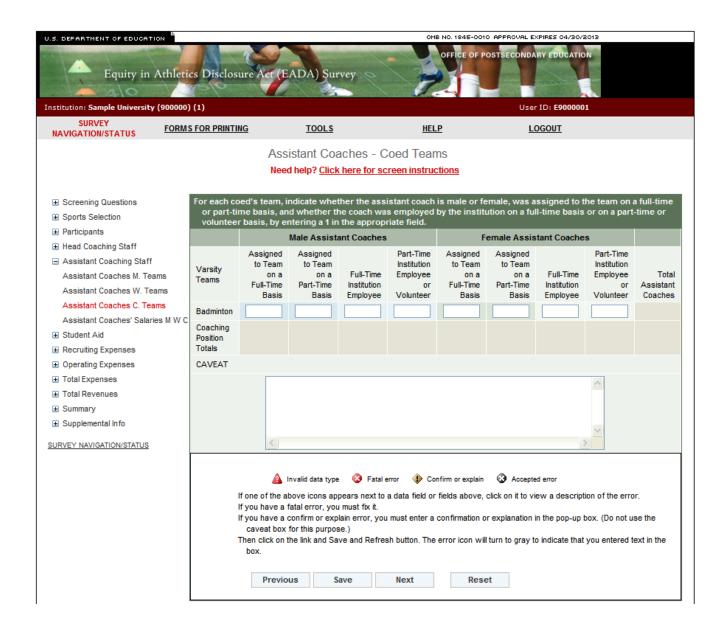

- Graduate assistants and volunteers who served as assistant coaches are considered assistant coaches for the purposes of the EADA.
- A **full-time coach** is someone who is assigned to one team on a full-time basis and is a full-time employee of the institution.
  - If an individual coaches more than one team, that individual is not assigned to one team on a full-time basis. That individual is assigned to both teams on a part-time basis.
  - If an individual coaches and has other non-coaching duties such as teaching or administrative, that individual is assigned to a team on a part-time basis and is a full-time or part-time institution employee.
- If a team changes coaches in mid-season, this still counts as one coach for the team. You can use the caveat box to explain the situation if you like.

### **Screen instruction:**

For each coed team, indicate whether the assistant coach is male or female, was assigned to the team on a full-time or a part-time basis, and whether the coach was employed by the institution on a full-time basis or on a part-time or volunteer basis, by entering a 1 in the appropriate field.

### **Directions:**

- 1. Enter the number of male assistant coaches assigned to each coed team on a full-time basis.
- 2. Enter the number of male assistant coaches assigned to each coed team on a part-time basis.
- 3. Indicate whether each individual is a full-time employee of the institution or a part-time employee/volunteer.
- 4. Enter the number of female assistant coaches assigned to each coed team on a full-time basis.
- 5. Enter the number of female assistant coaches assigned to each coed team on a part-time basis.
- 6. Indicate whether each individual is a full-time employee of the institution or a part-time employee/volunteer.
- 7. Click on the **Save** button at the bottom of the screen to record your data.

## **Assistant Coaches' Salaries**

Note: Instructions in this user's guide address men's, women's, and coed teams. Please apply the information as appropriate for your school. For example, if you have women's teams only, follow the instructions that apply to women's teams and ignore the instructions that apply to men's teams and coed teams.

## Information you need to complete this screen:

- To calculate the average salary per assistant coach for men's teams, add all of the men's assistant coaches' salaries and divide the total by the number of paid men's assistant coaches. Use this same method for women's and coed teams, as applicable.
  - Include only institutional compensation. That is, all wages and bonuses the institution pays an individual for coaching. (Do not include benefits in this calculation. Benefits should be included along with salaries and bonuses on the Total Revenues and Total Expenses screens.)
    - You may base your report on a coach's W-2 form so long as that document contains information that conforms to the U.S. Department of Education's interpretation of the EADA statute. (Note that a W-2 form may contain information that is not required by the statute.)
    - Include in a coach's salary such payments as those associated with sports camps, television shows, and shoe contracts only if they form part of the coach's institutional compensation for coaching.
    - If a third party (e.g., the school's media partner) pays some of a coaches' salary, include the amount only if the money is paid to the school which in turn pays it to the individual for coaching. Do not include money paid directly to the coach from the media partner or other third party.
  - Do not include volunteer assistant coaches in your salary calculations.
  - If a assistant coach has responsibilities for more than one team, and the institution does not allocate that coach's salary by team, divide the salary by the number of teams for which the coach has responsibility and allocate the salary among the teams on a basis consistent with the coach's responsibilities for each team.
  - If a faculty member also coaches, only the portion of his or her salary attributed to coaching activities should be included in the calculation of average salary. If coaching is part of the regular workload of a faculty member and the institution does not differentiate the compensation paid for teaching from compensation paid for coaching, the institution must make a reasonable effort to attribute an appropriate portion of the salary for coaching.
  - If a coach is replaced by another coach during the reporting year, combine the money paid to both individuals for that position. (The FTE should not change.) You can explain this situation in the caveat box.
- Full-time equivalent (FTE) refers to a measurement based on 100% for full-time. A full-time assistant coach's FTE is equal to 1. An institution can calculate FTE in various ways:
  - Use the length of the sport's season and compare with the calendar year. If a sport is four months in length, the FTE would then be 0.33.

- Look at the amount of time a coach spends coaching and compare that with a full-time position. A full-time employee is paid for 40 hours/week, 52 weeks/year. A coach works 15 hours/week for 20 weeks. The FTE would then be 0.14. For assistance in calculating the FTE based on hours per week, please refer to the table on page 49 of this user's guide.
- Take the salary that you are paying the individual for coaching and relate that to what a full-time salary would be. For example, if you are paying a coach \$5,000 and a full-time salary would be \$20,000, the FTE would be 0.25.
- If a full-time employee is paid for 12 credit hours and a part-time coach is paid for 3, the FTE would then be 0.25.
- If a 10-month contract is a full-time contract for employees at your school, a coach with a 10-month contract should be counted as 1 FTE. If a coach has a 10-month contract, but other employees at your school have 12-month contracts, the coach is a part-time coach and should be counted as less than 1 FTE.

#### **Screen instruction:**

Enter only salaries and bonuses that your institution pays assistant coaches as compensation for coaching. Do not include benefits on this screen. Do not include volunteer coaches in calculating the average salary and the Full-Time Equivalent (FTE) Total.

### **Directions:**

For Men's Teams (if applicable):

- 1. Enter the average annual institutional salary per assistant coach.
- 2. Enter the number of assistant coaches included in the average.
- 3. Enter the number of volunteer assistant coaches not included in the average.
- 4. Enter the number of full-time equivalents (FTEs) included in the average.

For Women's Teams (if applicable):

- 5. Enter the average annual institutional salary per assistant coach.
- 6. Enter the number of assistant coaches included in the average.
- 7. Enter the number of volunteer assistant coaches not included in the average.
- 8. Enter the number of full-time equivalents (FTEs) included in the average.

For Coed Teams (if applicable):

- 9. Enter the average annual institutional salary per assistant coach.
- 10. Enter the number of assistant coaches included in the average.
- 11. Enter the number of volunteer assistant coaches not included in the average.
- 12. Enter the number of full-time equivalents (FTEs) included in the average.
- 13. Click on the Save button at the bottom of the screen to record your data.

Note that the system will automatically calculate the data for all other categories after the screen has been saved.

## **Athletically Related Student Aid**

Note: Instructions in this user's guide address men's, women's, and coed teams. Please apply the information as appropriate for your school. For example, if you have women's teams only, follow the instructions that apply to women's teams and ignore the instructions that apply to men's teams and coed teams.

### Information you need to complete this screen:

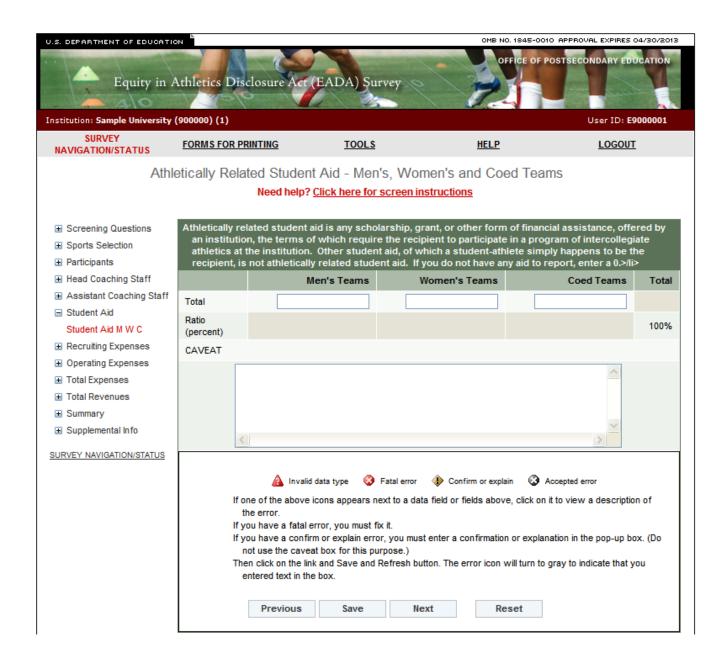

- Athletically related student aid is any scholarship, grant, or other form of financial assistance, offered by an institution, the terms of which require the recipient to participate in a program of intercollegiate athletics at the institution.
- The Athletically Related Student Aid category is a **subset** of Total Expenses. This means that the dollar amount you enter on the Athletically Related Student Aid screen should also be included on the Total Expenses screen.
- If athletically related student aid was awarded to students to participate on a team, you should include the aid on this screen even if the team is no longer a sponsored sport.
- Do not include:
  - Other student aid of which a student-athlete simply happens to be the recipient.
  - Athletics aid awarded to non-athletes (student-managers, graduate assistants, trainers).
- The amount of aid should be included in your revenues and expenses as well. If your school did not offer any athletically related student aid for the reporting period, enter a zero in the applicable field(s).

#### **Screen instruction:**

Indicate the total amount of money spent on athletically related student aid, including the value of waivers of educational expenses, aggregately for men's teams, aggregately for women's teams, and aggregately for coed teams, as appropriate. Use whole numbers.

### **Directions:**

- 1. Enter the amount of money spent by the institution on athletically related student aid for all men's teams combined.
- 2. Enter the amount of money spent by the institution on athletically related student aid for all women's teams combined.
- 3. Enter the amount of money spent by the institution on athletically related student aid for all coed teams combined.
- 4. Click on the **Save** button at the bottom of the screen to record your data.

# **Recruiting Expenses**

Note: Instructions in this user's guide address men's, women's, and coed teams. Please apply the information as appropriate for your school. For example, if you have women's teams only, follow the instructions that apply to women's teams and ignore the instructions that apply to men's teams and coed teams.

## Information you need to complete this screen:

- Recruiting expenses are all expenses an institution incurs attributable to recruiting activities. This includes, but is not limited to, expenses for lodging, meals, telephone use, and transportation (including vehicles used for recruiting purposes) for both recruits and personnel engaged in recruiting, and other expenses for official and unofficial visits, and all other expenses related to recruiting.
- The Recruiting Expenses category is a **subset** of Total Expenses. This means that the dollar amount you enter for Recruiting Expenses should also be included on the Total Expenses screen.

#### ■ Include:

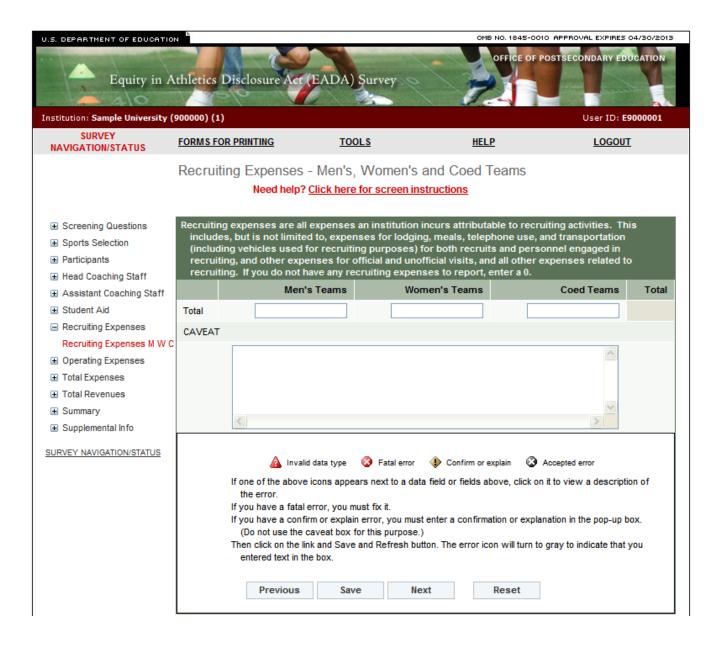

- All expenditures for on-site visits
- All recruiting-related expenses such as those incurred for printing recruiting materials, creating recruiting videos, and mass mailings.
- An estimate of the value of trade-outs used in the respective recruiting of male and female athletes. Trade-outs are goods and services provided by businesses in exchange for advertising or other services provided by the institution.
- You do not have to trace every phone call or every postage stamp. Schools may make a reasonable estimate of actual expenses for such items as telephone usage and postage if those expenses cannot readily be separated from telephone and postage charges incurred for other purposes.
- If your institution cannot determine whether it recruited a particular student primarily as a regular student or as a student-athlete, you should include only recruiting expenses incurred by persons representing the athletics department.
- If your school did not have any recruiting expenses for the reporting period, enter a zero in the applicable field(s).

#### **Screen instruction:**

Indicate the total amount of recruiting expenses incurred, aggregately for all men's teams, aggregately for all women's teams, and aggregately for all coed teams, as appropriate.

### **Directions:**

- 1. Enter the total recruiting expenses incurred for all men's teams combined.
- 2. Enter the total recruiting expenses incurred for all women's teams combined.
- 3. Enter the total recruiting expenses incurred for all coed teams combined.
- 4. Click on the Save button at the bottom of the screen to record your data.

# **Operating (Game-Day) Expenses by Team/per Participant**

Note: Instructions in this user's guide address men's, women's, and coed teams. Please apply the information as appropriate for your school. For example, if you have women's teams only, follow the instructions that apply to women's teams and ignore the instructions that apply to men's teams and coed teams.

## Information you need to complete this screen:

- Operating (Game-Day) expenses are all expenses an institution incurs attributable to home, away, and neutral-site intercollegiate athletic contests (commonly known as "game-day expenses") for
  - (A) Lodging, meals, transportation, uniforms, and equipment for coaches, team members, support staff (including, but not limited to team managers and trainers), and others: and
  - (B) Officials
- The Operating (Game-Day) Expenses category is a **subset** of the Total Expenses category. This means that the dollar amount you enter for Operating (Game-Day) Expenses should also be included on the Total Expenses screen.
- The original source of the funds used to pay operating expenses (e.g., fund-raising organizations) does not exempt the institution from reporting those expenses. If the funds are expended by the institution for one of the purposes listed in the statute, the expenses must be reported.

#### ■ Include:

- Expenses incurred by a team during an entire year, not just those incurred during the sports season of a team (e.g., expenses for tournaments and bowl games).
- Only institutional expenditures. Report expenses for unfunded or non-institutionally funded varsity teams as zero. If your institution has teams that it only partially funds, report those expenses it does not fund as zero.

#### ■ Do not include:

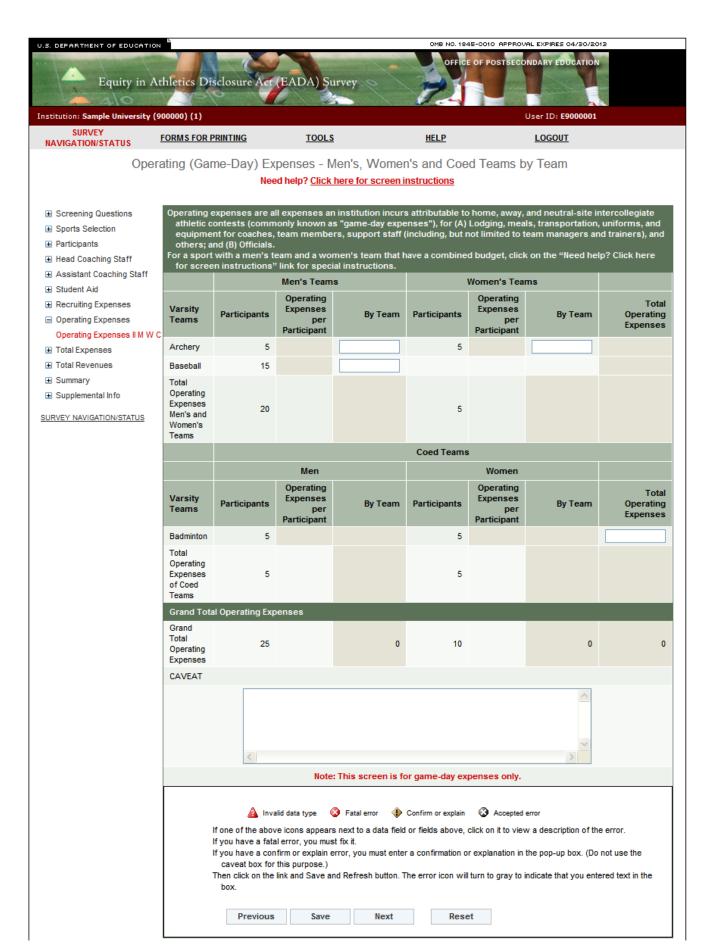

- Any categories of expenses that are not specifically listed above.
- Capital expenses and appearance fees or guarantees paid to visiting teams.
- Expenses not attributable to a particular sport, such as general and administrative overhead.
   Those expenses must only be included on the Total Expenses screen in the Not Allocated by Gender/Sport field.

## **Screen instruction:**

Enter operating expenses by team or per participant as appropriate. Use whole numbers only.

## **Directions:**

- 1. Enter the operating expenses for each men's team that is listed on the screen.
- 2. Enter the operating expenses for each women's team that is listed on the screen.
- 3. Enter the operating expenses for each coed team that is listed on the screen.
- 4. Click on the Save button at the bottom of the screen to record your data.

# **Total Expenses**

Note: Instructions in this user's guide address men's, women's, and coed teams. Please apply the information as appropriate for your school. For example, if you have women's teams only, follow the instructions that apply to women's teams and ignore the instructions that apply to men's teams and coed teams.

## Information you need to complete this screen:

- Expenses are expenses attributable to intercollegiate athletic activities. This includes appearance guarantees and options, athletically related student aid, contract services, equipment, fundraising activities, operating expenses, promotional activities, recruiting expenses, salaries and benefits, supplies, travel, and any other expenses attributable to intercollegiate athletic activities.
- Your total expenses are expected to be greater than your recruiting expenses, operating expenses, athletically related student aid, and coaches' salaries combined.
- The basis for determining whether an expense should be included in an institution's EADA report is simply whether the item was attributable to the institution's intercollegiate athletic activities.

#### ■ Include:

- Actual amounts expended, not budgeted or estimated amounts.
- Athletics aid awarded to non-athletes (student-managers, graduate assistants, trainers) who serve a specific team. Prorate these expenses by team if the individual serves more than 1 team. If the individual serves all teams, please put the athletics aid in the Not Allocated field.

### ■ Do not include:

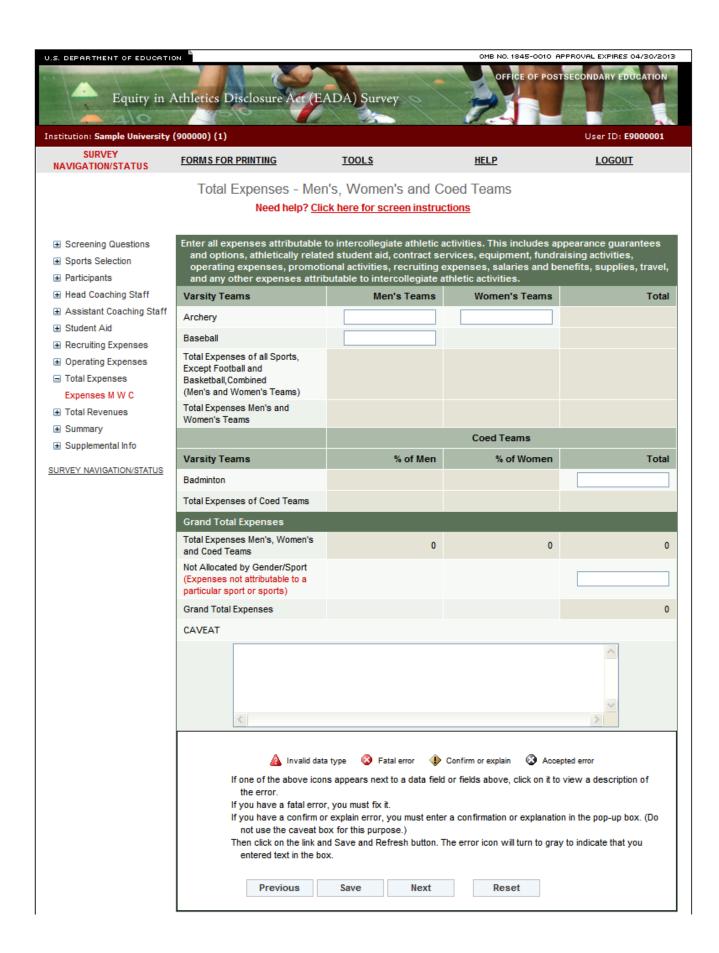

- Capital expenditures or debt service.
- Money for indirect facilities.
- Expenses not attributable to a particular sport, such as general and administrative overhead, must be included in the Not Allocated field.
- If your school anticipated fielding a team, but then did not have any participants for that team, put any expenses incurred in the Not Allocated field.

## **Screen instruction:**

Enter expenses incurred by the institution according to the categories listed on the screen, as appropriate. Use whole numbers only.

## **Directions:**

- 1. Enter expenses attributable to each men's team listed on the screen.
- 2. Enter expenses attributable to each women's team listed on the screen.
- 3. Enter expenses attributable to each coed team listed on the screen.
- 4. Enter expenses not allocated by gender/sport.
- 5. Click on the Save button at the bottom of the screen to record your data.

### **Total Revenues**

Note: Instructions in this user's guide address men's, women's, and coed teams. Please apply the information as appropriate for your school. For example, if you have women's teams only, follow the instructions that apply to women's teams and ignore the instructions that apply to men's teams and coed teams.

## Information you need to complete this screen:

- Revenues are revenues attributable to intercollegiate athletic activities. This includes revenues from appearance guarantees and options, an athletic conference, tournament or bowl games, concessions, contributions from alumni and others, institutional support, program advertising and sales, radio and television, royalties, signage and other sponsorships, sports camps, state or other government support, student activity fees, ticket and luxury box sales, and any other revenues attributable to intercollegiate athletic activities.
- Revenues include more than earned income (such as gate receipts). The basis for determining whether revenue should be included is simply whether the item was attributable to the institution's intercollegiate athletic activities.
- Total annual revenues means gross revenues.
- Your grand total reported revenues must cover your grand total reported expenses. If your initial calculations indicate that your total revenues do not cover your total expenses, you may find it helpful to work backwards. How were the bills paid? The funds used to pay them should be included in your revenues.

#### ■ Include:

- Revenues derived from fund-raising activities (along with fundraising money carried over in the budget)
- Actual amounts earned or received, not pledged, budgeted, or estimated amounts.
- Athletics aid awarded to non-athletes (student-managers, graduate assistants, trainers) who serve a specific team. Prorate these expenses by team if the individual serves more than 1 team. If the individual serves all teams, please put the athletics aid in the Not Allocated field.

### ■ Do not include:

- Capital assets and related debts.
- Money for indirect facilities
- When reporting revenues from institutional support include budgeted dollars that were not spent *only* if those dollars remained in the athletic department's or team's budget at the end of the year. For example, if a sport is budgeted \$20,000 for the year, and at the end of the year the sport has only spent \$11,000, there is a \$9,000 surplus. If the \$9,000 remained in the athletics department's or team's budget, you should include the \$9,000 in your reported revenues. If, however, the \$9,000 was taken out of the athletics department's or team's budget, do not include the \$9,000 in your reported revenues.
- The Not Allocated by Gender/Sports category should include revenues not attributable to a particular sport or sports. Those revenues include, but are not limited to, alumni contributions to the athletic department not targeted to a particular sport or sports, investment interest

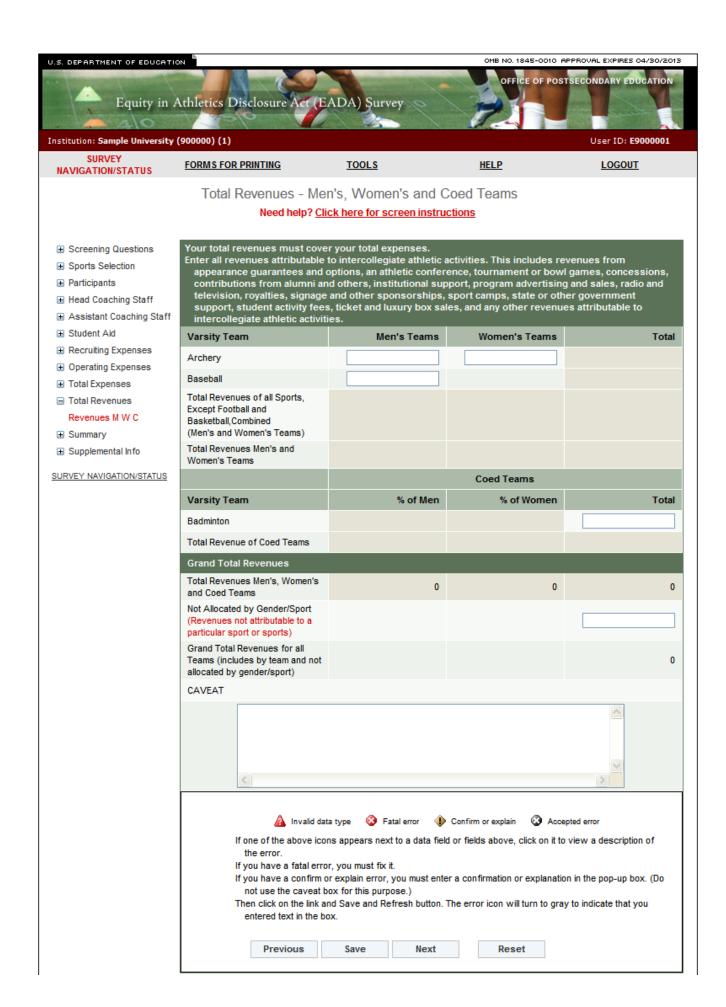

income, student activity fees, and the athletics director's salary. Money budgeted for a team for which there were no participants should also be included under "Not Allocated by Gender/Sport."

## **Screen instruction:**

Enter revenues derived by the institution according to the categories listed on the screen, as appropriate.

### **Directions:**

- 1. Enter revenues attributable to each men's team listed on the screen.
- 2. Enter revenues attributable to each women's team listed on the screen.
- 3. Enter revenues attributable to each coed team listed on the screen.
- 4. Enter revenues not allocated by a particular gender/sport.
- 5. Click on the Save button at the bottom of the screen to record your data.

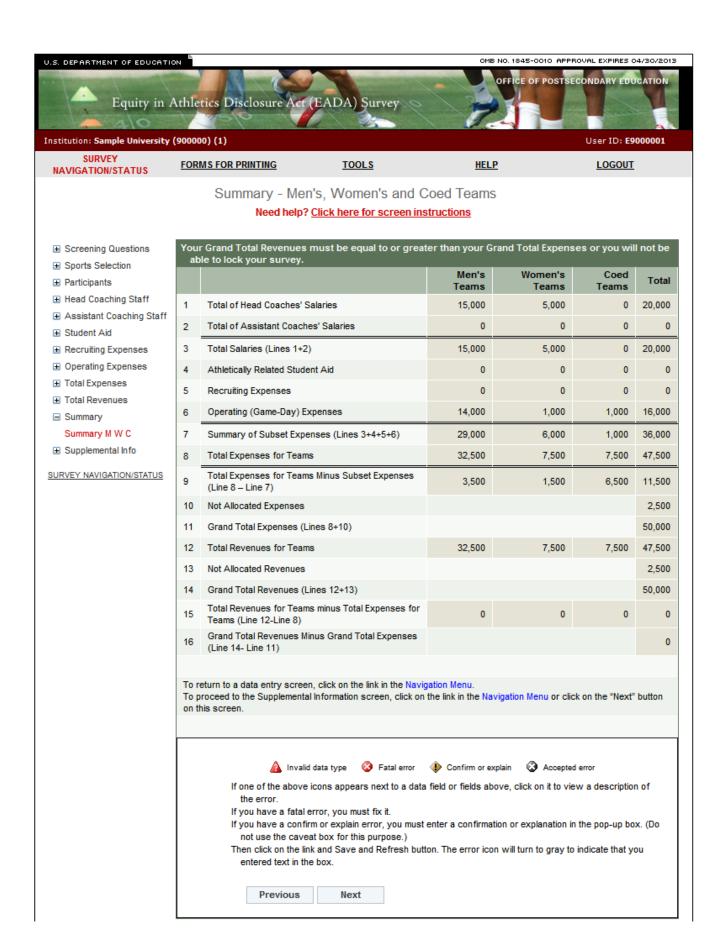

# **Summary**

The Summary screen displays the totals you entered on previous screens. If this screen shows errors, you must revisit previous screens to make changes. Remember that all errors must be corrected and your Grand Total Revenues must be equal to or greater than your Grand Total Expenses before you can lock your survey. Use the links on the left-hand side of the screen to return to any screen that requires corrections. Be sure to click on the Save button on each screen on which you make changes.

After all errors have been corrected, or if this screen does not show any errors, click on the **Next** button to proceed to the Supplemental Information screen.

Below is a chart to guide you through the summary screen.

1. Total Head Coaches' Salaries	The total is derived from the amounts entered on the Head Coaches' Salaries				
1. Total Head Coaches Salaries					
	screen. The total is the Average Annual Institutional Salary per Head Coach				
	multiplied by the Number of Head Coaches Used to Calculate the Average. For				
	details, see page 36.				
2. Total of Assistant Coaches'	The total is derived from the amounts entered on the Assistant Coaches' Salaries				
Salaries	screen. The total is the Average Annual Institutional Salary per Assistant Coach				
	multiplied by the Number of Assistant Coaches Used to Calculate the Average.				
	For details, see page 46.

Grand Total Expenses	money that remained in the athletics department after all expenses were paid.				

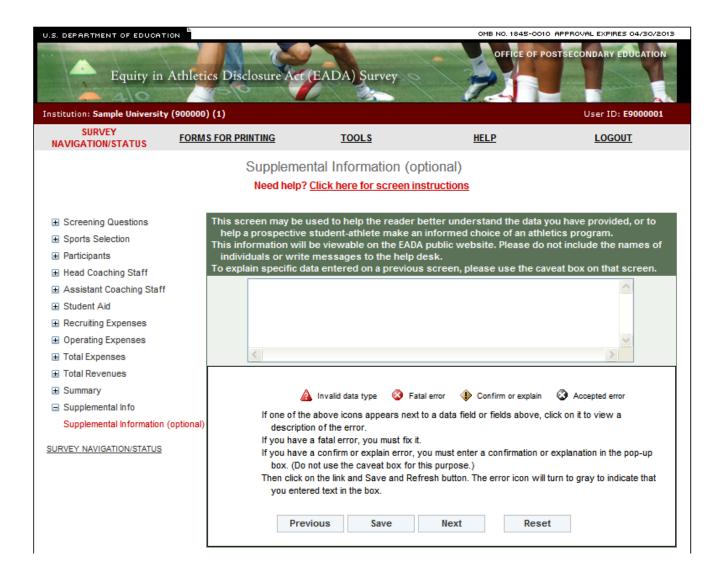

# **Supplemental Information**

The supplemental information screen allows you to provide the reader with additional information about your data or to provide information to help a prospective student-athlete make an informed choice of an athletics program. You can enter a total of 1,000 characters in this space. When your data are migrated to OPE's public website, this information will be included.

If you enter text on this screen remember to click on the **Save** button at the bottom of the screen to record your entry.

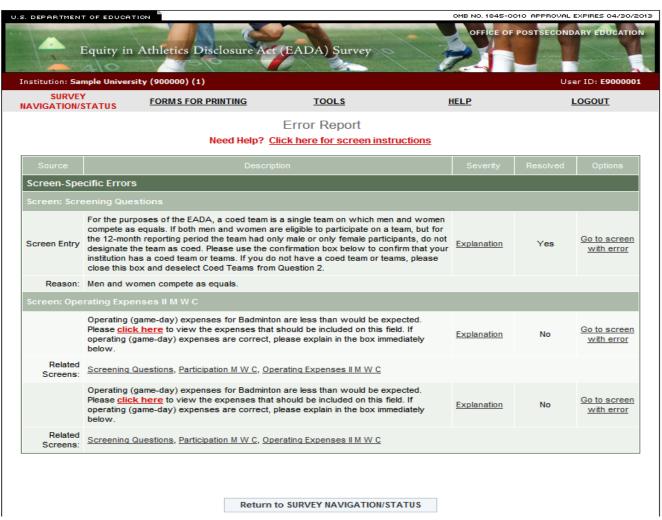

Note: Do not use the symbols < or > in your text. The survey system cannot save your text if you do.

# **Check for Errors/Error Report**

When you have finished entering your data, you must check for errors (and correct any that exist) before you can lock the survey. To do this, go to the Survey Navigation/Status screen. It will have **Check for Errors** link. Follow these steps:

- 1. Click on the **Check for Errors** link. You will be taken to an Error Report screen. This report displays a list of any errors detected by the survey system and includes links to screens requiring updates.
- 2. If there are no errors, you will get the message, "The survey for (institution ID) is ready for locking."
- 3. If the system has detected any errors, you must correct them before you can lock survey. To correct an error, click on the link adjacent to the error under the Options column. If you have an error that affects only one screen, the link will read, "Go to screen with error." If you have a Global error, or an error that affects more than one screen, the link will read," Return to data entry screens." After you correct an error, click the **Save** button. The Error Report screen will be updated and you will see "Yes" on the associated line under the "Resolved" column when you return to the report.
- 4. Continue fixing your data until all errors have been resolved.

# **Locking Your Survey**

After you conduct the error check and there are no errors detected by the survey system, you are ready to lock your survey. Locking the survey creates a read-only file and prevents additional updates. It is advisable to lock the survey only *after* the data inputs have been thoroughly verified and deemed final. After the survey is locked, the system will send a confirmation e-mail to the address listed on the Registration screen.

A survey must be locked before it is considered complete.

You can lock your survey from the Error Report screen when you see this message:

All errors were resolved for the selected survey for this institution.

This survey is ready to be locked. After you lock your survey, the data will be reviewed by EADA content specialists. If there are no questions, the data will be migrated to the EADA public website. If there are questions about the data, an e-mail will be sent asking you to call the EADA Help Desk to resolve the questions so that your data can be migrated to the public site.

- 1. Click on the **Lock this (Unit ID)** survey button.
- 2. Click on the **Continue with locking** button.
- 3. You will get confirmation that your survey was locked.

You do not have to lock your survey immediately when you see the above message. For example, you may want to discuss the data with a colleague. In that case, click on the **Return to Survey Navigation/Status** button on the Error Report screen.

When you are ready to lock your survey:

- 1. On the Survey Navigation/Status screen, click on the **Lock** link.
- 2. Click on the **Continue with locking** button.
- 3. You will get confirmation that your survey was locked.

Once your survey is locked, you must contact the EADA Help Desk if you subsequently discover an error and need to make changes.

Note: Always print a copy of your completed survey for your records.

# **What Happens After Your Survey Data Have Been Locked?**

After you lock your survey data, the survey system will automatically send an e-mail to the address on the survey Registration screen. The e-mail is written confirmation that the survey was locked and will include the date that it was locked.

Next, the survey data will be reviewed. Note that although the survey system did not detect any errors, or any further errors, and you were able to lock your survey, there may still be errors, or questions about your data. If this is the case with your survey, an e-mail will be sent to the address on the Registration screen asking you to contact the help desk toll-free by telephone to correct an error or to clarify some specific data or some text in a caveat.

For example, there may be a discrepancy between something written in a caveat, and the data on that screen. Another example is stating that the huge increase in a line item from the previous year was due to an increase in capital expenses. Capital expenses are not included in the EADA data collection, and thus should be deleted.

# Migrating the data to OPE's public website

After the questions have been resolved, or if there are not any questions, your institution's survey data will be migrated to the Office of Postsecondary Education's public website for anyone to view. That address is: <a href="http://ope.ed.gov/athletics">http://ope.ed.gov/athletics</a>. Please note that it may take several weeks before your survey data are migrated as there are many surveys to review and they are reviewed in the order that they were locked.

If you would like to view your institution's data after they have been migrated, go to the public website and click on the first report option ("**Get data for one institution**"). Enter the name of your institution in the Name of Institution field, and click on the Search button at the bottom of the screen. Click on the links to view the various survey screens.
